The

Geophysical Journal

of the

Royal Astronomical Society

Volume 15

Published for the Royal Astronomical Society by
Blackwell Scientific Publications · Oxford and Edinburgh

INDEX

Akasofu, Syun-Ichi, The growth of the storm-time radiation belt and the magnetospheric substorm 7

Book Reviews:
——, Physical Geology 455
——, Solar-Terrestrial Physics 456
——, Their Majesties Astronomers 551
——, The Gravity Field of the Earth from Classical and Modern Methods 551
Cann, J. R., Geological processes at mid-ocean ridge-crests 331
Chamalaun, F. H. & H. Porath, Palaeomagnetism of Australian hematite ore bodies—II. Western Australia 253
Chapman, S., P. C. Kendall, P. N. Swartztrauber & D. W. Windle, The magnetic field and energy of an axisymmetric Van Allen Belt 317

Continental structure
——, Crustal thickness in the Central Saudi Arabian Peninsular, Mansour Niazi .. 545
Cook, A. H., The polar flattening and gravity formula in the Geodetic Reference System 1967 431
Corrigendum 343
Cowley, Ann D. & B. Haurwitz, Lunar tidal winds at four American stations 103

Earth–free oscillations of
——, Matrix analysis of the electro-optical light modulators used in electromagnetic distance measurements, G. Manzoni and C. G. Someda 393

Earth–gravity field
——, The polar flattening and gravity formula in the Geodetic Reference System 1967, A. H. Cook 431

Earth–physics of the interior
——, Planetary magnetic fields as a test of the dynamo theory, S. K. Runcorn .. 183
——, The influence of the boundary conditions and rotation on convection on the Earth's mantle, D. P. McKenzie 457
Everett, J. E. & J. E. A. Osmeikhian, Anomalous magnetic variations in southwestern Scotland 361
Ferraro, V. C. A., Sydney Chapman—an appreciation on the occasion of his 80th birthday 1
Fukunishi, H. & T. Nagata, Dependence on geomagnetic activity of magnetic pulsation frequency of pc-3 and pc-4 ranges 69

Geomagnetism
——, The growth of the storm-time radiation belt and the magnetospheric substorm, Syun-Ichi Akasofu 7
——, Rotation of the low-altitude *DS* field and westward drift of a partial ring current, Masahisa Sugiura 23
——, The westward drift and geomagnetic secular change, E. H. Vestine & Anne B. Kahle 29
——, The causes and uses of geomagnetic disturbance index *Kp*, J. H. Piddington .. 39
——, Some features of geomagnetic micropulsations observed during the recent quiet solar years, with particular reference to data obtained at the near conjugate stations of Great Whale River and Byrd, J. A. Jacobs & C. S. Wright .. 53
——, Dependence on geomagnetic activity of magnetic pulsation frequency of pc-3 and pc-4 ranges, T. Nagata & H. Fukunishi 69
——, Theoretical magnetograms for s.s.c. when the ocean effect is considered, T. Rikitake 79
——, Conductivity and resistivity in skew conductors, D. F. Martyn 91
——, Ionospheric conductivity and *Sq* variations, A. T. Price 93
——, Lunar tidal winds at four American stations, B. Haurwitz and Ann D. Cowley 103

PAGE

——, *Sq* and *L* current systems in the ionosphere, S. Matsushita 109
——, Automatic calculation of daily ionospheric current systems, D. J. Stone .. 127
——, Chapman function for an atmosphere with a constant temperature gradient, Zdenek Sekera 137
——, Ion drag with electrodynamic drift; a computer experiment for the F2 layer, P. C. Kendall & D. W. Windle 147
——, On the thermal-diffusion effect in the thermosphere, Marcel Nicolet 157
——, Thermal-diffusion and multiply-charged atoms in the magnetosphere, M. P. Nakada & S. F. Singer 163
——, An observational search for cosmic light, F. E. Roach & L. L. Smith 227
——, The magnetic field and energy of an axisymmetric Van Allen Belt, S. Chapman, P. C. Kendall, P. N. Swartztrauber & D. W. Windle 317
Glasko, V. B., E. F. Savarensky, T. A. Proskuryakova, Y. Sh. Granit & E. V. Voronina, On the lateral refraction of Rayleigh Surface waves and microseisms in the North Atlantic 529
Glover, P. & G. Manzoni, Matrix analysis of the electro-optical light modulators used in electromagnetic distance measurements 393
Granit, Y. Sh., E. F. Savarensky, T. A. Proskuryakova, V. B. Glasko & E. V. Voronina, On the lateral refraction of Rayleigh surface waves and microseisms in the North Atlantic 529
Haggerty, S. E. & N. D. Watkins, Oxidation of magnetic polarity in single Icelandic lavas and dikes 305
Harvey, J. G., The flow of water through the Menai Straits 517
Haurwitz, B. & Ann D. Cowley, Lunar tidal winds at four American stations .. 103
Heather, Michael A., The reliability of ancient eclipse records 549

Historical

——, Sydney Chapman—an appreciation on the occasion of his 80th birthday, V. C. A. Ferraro 1
——, Edmond Halley and early geophysics, Colin A. Ronan 241
——, The reliability of ancient eclipse records, Michael A. Heather 549
Hjortenberg, E., Microseisms in Alberta 449
Honea, R. M., D. W. Strangway, B. E. McMahon & E. E. Larson, The magnetic properties of naturally occurring goethite 345

Hydrodynamics

——, Some effects of topography on the tidal flow in a river estuary, B. Johns .. 501
——, The flow of water through the menai Straits, J. G. Harvey 517
Ince, P. I., N. Sakamoto & W. O'Reilly, The effect of wet grinding on the oxidation of titanomagnetites 509
Jacobs, J. A. & C. S. Wright, Some features of geomagnetic micropulsations observed during the recent quiet solar years, with particular reference to data obtained at the near conjugate stations of Great Whale and Byrd 53
Jeffreys, Sir Harold, Comparison of seismological stations 249
Johns, B., Some effects of topography on the tidal flow in a river estuary 501
Kahle, Anne B. & E. H. Vestine, The westward drift and geomagnetic secular change 29
Kendall, P. C. & D. W. Windle, Ion drag with electrodynamic drift; a computer experiment with the F2 layer 147
Kendall, P. C., S. Chapman, P. N. Swartztrauber & D. W. Windle, The magnetic field and energy of an axisymmetric Van Allen Belt 317
Key, F. A., Some observations and analyses of signal generated noise 377
Kovach, R. L. & Glover, P., Travel times of *PKP* in the range $115° < \Delta < 140°$ .. 367
Larson, E. E., D. W. Strangway, R. M. Honea & B. E. McMahon, The magnetic properties of naturally occurring goethite 345
Larson, E. E. & D. W. Strangway, Discussion on 'Correlation of petrology and natural magnetic polarity in Columbia Plateau basalts' by R. L. Wilson and N. D. Watkins 437
Lyttleton, R. A., On the origin of tektites 191
Manzoni, G. & C. G. Someda, Matrix analysis of the electro-optical light modulators used in electromagnetic distance measurements 393
Martyn, D. F., Conductivity and resistivity in skew conductors 91
Matsushita, S., Sq and *L* current systems in the ionosphere 109
McElhinny, M. W., Palaeomagnetic directions and pole positions—VIII. Pole numbers 8/1 to 8/186 409
